1 AVIATION PLAZA,
159-30 ROCKAWAY BLVD ROOM 504
JAMAICA NY 11434-4809

The Airmen Certification Branch, AFB-720, has received the attached confirmation that the following airman's foreign license and medical certificate or endorsement have been verified as current and valid by the Australia Civil Aviation Authority.

Name:
License Number(s):

The Airmen Certification Branch only verified the applicant's foreign license number, the level of the license, and that the license has not been surrendered, suspended, revoked, or expired.

NOTE REGARDING EXPIRED RATINGS: Before exercising the privileges of the FAA pilot certificate, the pilot must comply with the pertinent rules and requirements contained in 14 CFR Part 61 and 14 CFR Part 91. (§61.56 flight review requirements, §61.57 recency of experience requirements, §61.58 PIC proficiency check, §61.51 required logbook entries, etc.)

Some ratings shown on a verification letter may not be eligible for conversion to an FAA certificate. Airmen Certification has verified the authenticity of the applicant's foreign license, but the applicant **MUST** still provide appropriate documentation that the rating(s) held on the foreign license parallel U.S. rating(s) in accordance with 14 CFR §61.5(b) or §63.33(a). If the applicant is applying in accordance with §61.75, IPL or T-IPL, a pilot in command rating must be shown on the foreign license and the foreign license cannot be issued on the basis of another country. The Flight Standards District Office or Designated Examiner has the responsibility to determine if the ratings on the foreign license conform to the appropriate Code of Federal Regulation.

This applicant is authorized to apply for a U.S. airman certificate in accordance with 14 CFR §61.39, §61.71, §61.75, §61.77, §61.123, §61.153, §63.23, or §63.42. If the applicant's foreign medical license expires prior to the issuance of a U.S. airman certificate, then the applicant must hold a current FAA medical certificate issued under part 67. If the applicant is applying based on the completion of a practical test solely in a simulator, then a medical certificate is not required in accordance with §61.23 (b)(8). In order to exercise the privileges of a U. S. airman certificate,

the airman must hold the proper medical certificate.

Receipt of this Verification Letter of Authenticity does not guarantee the issuance of an FAA certificate. In accordance with 14 CFR §61.13(a)(3), "an applicant who is neither a citizen of the United States nor a resident alien of the United States may be refused issuance of any U.S. airman certificate, rating, or authorization by the Administrator."

Foreign applicants who require a visit to an FAA Flight Standards District Office or are applying for the issuance or replacement of an airman certificate in accordance with 14 CFR §61.75 must contact their selected Flight Standards District Office upon receipt of this verification to schedule an appointment with a FAA Inspector. Do not anticipate an appointment earlier than three weeks after this initial contact, due to enhanced security procedures.

This authorization expires November 30, 2023. If the foreign license expires prior to the expiration date shown on this letter, this verification is no longer valid and cannot be used to make application for a U.S. airman certificate or authorization.

Sincerely,

A handwritten signature in black ink, appearing to read "Jay A. Tevis". The signature is stylized with a large initial "J" and a long horizontal stroke extending to the right.

Jay A. Tevis
Manager, Airmen Certification Branch
